MEDINA COURTHOUSE DESIGN UPDATE

See attendance sheet attached.

BCI presented the current status of the design of the Courthouse: site plan and massing images for the previous design without the 1969 building and what that design looks like if keeping the 1969 building. The purpose of the meeting was to share where we are with the building design and discuss appropriate approach for the design of the exterior appearance of the building.

1. Can the Sturgis Building entry go away and have a connection through to the parking garage?
2. Don't want the new building to loom above the 1969.
3. Prefer to keep 1969 courthouse for flexibility of use.
4. Brick and cast stone is appropriate.
5. How do we feel about Historical style vs. today?
6. Use materials that respect the square, but do something of its time (2021).
7. Want something they can be proud of.
8. Like the proportions of Scioto County example.
9. Kelly prefers to eliminate the 1969 building. The new building won't have the wow. We will spend all the money and not see it.
10. Can we make an entrance through the 1969 building?
11. Someone made a reference to the Courthouse in Washington Court House, OH. Look at as an example. Also references to Wellington, OH.
12. Can't decide whether to keep 1969 without seeing what it would look like.
13. Want to see elevation options.

If you should disagree with any information contained herein, please kindly notify our office in writing within 10 days of receipt of this memorandum.
