

# CONFERENCE MEMORANDUM

MEDINA COURTHOUSE  
PROJECT NO. 19068

**Present:**

**Owner:**

Medina Community Design Committee

**Design Team**

Nancy Nozik, BCI

**07/08/2020**

## MEDINA COURTHOUSE DESIGN UPDATE

See attendance sheet attached.

BCI presented the current status of the design of the Courthouse: site plan and massing images for the previous design without the 1969 building and what that design looks like if keeping the 1969 building. The purpose of the meeting was to share where we are with the building design and discuss appropriate approach for the design of the exterior appearance of the building.

1. Don't like the idea of the new building looming over the 1969 courthouse.
2. Can we make the building footprint larger to make the whole building lower? Utilize the whole surface parking lot for the building footprint.
3. Major cities do have large buildings behind other prominent buildings.
4. The Old Courthouse and the 1969 Courthouse are two very different styles next to each other. Need something that blends.
5. Union County Courthouse example – good size, compatible design. Newer addition does not distract from original.
6. Sturgis and Old courthouse – both 1873 then different in the center.
7. Eye should be drawn to the old courthouse, not the new.
